Re: endorsement of the European Angels Initiative

Dear Thomas, dear Jan

The Bulgarian Neurological Society has agreed to endorse formally The European Angels Initiative, which was recently launched by Boehringer Ingelheim and which aims at developing a community of at least 1,500 stroke centers and stroke ready hospitals across Europe by May 2019.

The Bulgarian Neurological Society fully shares the declared objectives outlined in the Angels Project. We congratulate the organizers for this desirable initiative and will actively support its progress. We encourage stroke units or hospitals who aim to be a stroke ready hospital to enroll in the Angel Initiative www.angels-initiative.com".

15.03.2018.

Sincerely,

Acad. Prof. Ivan Milanov, MD, PhD, DSc

President of the Bulgarian Neurological Society
